

11/5/78

Dear Jeff,

Thanks for the Nonseko narration, which came yesterday.

However, it is not the staff report.

The staff report was described by Blakey as a staff analysis of various statements they attributed to Nosenko from various and not entirely described sources but including the executive sessions and the staff interviews.

This narration is a duplicate. I'll file it with the other copy and if you or anyone else needs a copy I'll send it.

Again my interest is FOIA. In time there will be processing of various Nosenko records for me and there will be "national security" claims. So aside from any value in preparing Jim for oral argument which may be in the near future and I think will be there will be future usefulness in this if you come across a copy.

My Nosenko requests date to 1975. We'd have moved if we had the time. But there is little doubt that there will have to be some processing soon.

Thanks,
